Comments: I have heard so much about the wonders and beauties of Prince William Sound, as well as its tragedies and problems. I have never had the opportunity to visit it and kayak in its waters, though I hope to do so before it is too late. It is so very important that the wilderness values of this treasured watery wonderland be preserved and protected, and not allowed to be degraded through lack of attention.

Please revise your plan to restore Wilderness designation and protection to Nellie Juan College Fjord Wilderness Study Area (WSA), and upper Columbia Bay, Glacier Island, Lake Nellie Juan, Knight Island and West Port Wells. Keep them in pristine condition for when I (and many others) come to visit them.

Thank you.
