Comments: I love to be able to go ride my Snowmobile in such amazing mountains so close to Anchorage. I've been riding all my life with my family and friends having a great time in the Chugach. Snowmobiles run deep in Alaska. Many people have really respectfully ridden those zones. It would negatively impact my family as well as all my closest friends if they couldn't spend weekends on their sleds in the Chugach. Local businesses would be crushed if some of the top riding terrain in the nation, was shut down and unable to be accessed. All riders follow advisories and rules set in place by park service, everyone can enjoy what they have always done in these amazing places.
