Comments: I personally am an active winter time user of the Turnagain Pass area. Due to previous leg injuries I cannot ski or snowboard anymore.. So the only way that I can use the area is on a snowmobile. I have friends that ski and snowboard and they enjoy it that I can tow them up the mountain. If anything I would like to see an expansion of the areas that are allowed to be used by winter time motorized vehicles. I already greatly enjoy being able to go to Turnagain Pass, which is only 45 minutes from my house, to ride. Otherwise I have to go up north somewhere, which is quite a long drive.
