Comments: Hello

For 10+ years I have rode snowmachines and hiked to go snowboard in the chugach, the last 5 or so years I have mainly stuck to the motorized zones. Minus the closure of the motorized areas in past winters I have noticed quite the growth in snowmachiner's packing snowboarders or ski's into the motorized side, which is perfectly fine everyone kinda gives everyone a mutual respect and stays aware of where each other are riding to give them room.

With that being said, I would like to see more compromise for the motorized side for new riding areas I'm sure we can all work together to enjoy the backcountry.

Thank you for considering people's comments and hope we can all figure it out and make a fair decision.
