Comments: I would like to see more areas open to motorized use and for longer periods of time. Center creek drainage would be a great addition for motorized users. Allowing Skookum to stay open after the April 1 closure would be nice if the snow conditions allowed.

Non motorized users have access to any terrain they want, while motorized users in the anchorage area have a very limited selection. With the low snow years we have had lately, it's made it hard to find places to recreate for the winter motorized users.
