First name: Adam

Last name: Ebnet

Organization:

Title:

Comments: I believe in treating all user groups equally. Therefore closing areas for certain groups in particular (snowmachine and hunting areas a like) is NOT a wise decision. Closing areas will concentrate the groups which will put more pressure in other areas of the Chugach or other areas throughout the state. Opening more areas and spreading people out would be the most beneficial to our state and all user groups.

Comments should only come from local Alaskan residence and decisions should not be influenced from out of state special interest groups.
