Comments: I am new to the sport of snow machining and the turnagain area is a place that my family and I are able to ride. It is a great place to learn and develop riding skills. My family and I spend a lot of time riding the lower areas with terrain that is suitable for a family to ride. There are challenging areas for my older kids and myself as well as moderate terrain that my younger daughter can ride. It is a great area with great balance, there are areas for motorized users as well as non-motorized users. I support both motorized and non-motorized users, it is important to keep areas open for both.
