Comments: I write in support of grooming and other activities by volunteers and nonprofit organizations that will facilitate enjoyment and access to Forest Service Lands. A case in point is grooming of Turnagain Arm lands by Girdwood Nordic Ski Club and its volunteers. It is clear that this grooming is beneficial to winter enjoyment of the area, especially in seasons with low snowfall in lower elevations. It is certainly possible that similar activities on other Forest Service lands may become advisable in the future, and I recommend that provision be made for this eventuality.

Thank you.
