First name: Charles

Last name: Mullen

Organization:

Title:

Comments: Please leave the Chugach Forest as is. Please do not allow any residential timber harvests, expanded motorized uses, manipulation of habitats, mining, and helicopter-assisted skiing and hiking. We must leave our public properties in as pristine state as possible for future generations. No amount of profit should be more important than protecting our forests, reserves, refuges and other public lands. Please do not succumb to corporate pressure and outside interests.

Thank you for your time.
