Last name: Sarraille

Organization:

Title:

Comments: 1. Please honor your standing promise to maintain the wild character of the entire Wilderness Study Area until Congress finalizes it's protection.

2. Recommend that the entire 1.9 million acres of the WSA be included in the plan and all surrounding roadless lands eligible for designation as Wilderness.

3. Reverse your stupid recommendation to spilt the entire WSA into two smaller areas. This would mean that the parts of the WSA would permanently be stripped of their longstanding protections.

4. Prohibit Recreational Snowmobile use in the WSA.

5. Since ANILCA contains no substantial guidance on WSA's protection, management of the WSA should follow the Forest Service's Regional Office WSA directions.

6. Increased usage will damage/harm the WSA. The Forest Service should maintain all current protections and recommend to Congress that those protections be maintained in perpetuity!
