First name: Sylvia

Last name: Arnstein

Organization:

Title:

Comments: Just stop! This plan reveals a profound lack of vision on the part of the Forest Service. It looks to the past and not the future. The short term instead of long term. Eating away at the original grand vision for the use of this land in order to provide bits and pieces of commerce for the few, leaves us with diminished benefit for both.

Penny ante commerce has no place here.
