Last name: LeBlanc

Organization:

Title:

Comments: Wilderness Area or any land that is being considered for wilderness status should be subject to the strongest protections. Wilderness Study Areas should be protected as wilderness until Congress decides whether to designate them as wilderness. Wilderness Study Areas should be maintained as the largest areas possible, and not whittled down.

Wilderness and Wilderness Study Areas should not be a place for timber harvest, motorized vehicle use, mining, or helicopter activity other than rescue. Wilderness should mean wilderness.
