Comments: The wilderness character of Prince William Sound is very important to me.

Over the years I have explored the area by sea kayak, spending weeks at a time kayaking and camping throughout the sounds, especially in the Nellie Juan - College Fjord Wilderness Study Area.

I would like to see a formal wilderness recommendation from the U.S. Forest Service for the Nellie Juan-College Fjord Wilderness Study Area.

I would like the entire wilderness study area to be included in the wilderness designation. Areas such as Knight Island, Glacier Island, Nellie Juan Lake, and the upper Columbia Glacier basin are all amazing natural areas that fit the definition of wilderness.

This new land management plan should reinforce the Forest Service's obligation to manage this study area (WSA) protectively to keep it eligible as wilderness until Congress acts

The new Land Management Plan should preserve the wilderness character of Prince William Sound.
