Comments: I was born at providence hospital in 1990 and raised here since. I've never loved anywhere else nor do I have the desire too. My family and friends, we grew up in these mountains riding sleds every weekend, every spring, hell if it was sunny we would make it a priority not to miss out on those rare occasions. And now you want to take it away???? You think we're the only ones back there I know for a fact on any given day it is clear enough to ride turnagain, THE SKIERS BRING THEIR SNOWMACHINES TO THE SOUTH SIDE AND RIDE AROUND AND SKI DOWN!!!!!! I get this isn't about who goes where, but this is about the fact that we ALL use the land in our OWN way because well it's OUR land. Please leave it the way it is. Thank you
