First name: Marion

Last name: Vicary

Organization:

Title:

Comments: Please help protect Prine William Sound as a wilderness recreation area of the purist kind. People should be able to get out into it for the peace and quiet and enjoyment of nature at its least threatened best. No more oil spills, mineral excavation sites or timber markets. There are so few places left as pristine anywhere in the world. That is a higher value than any amount of exploitation will provide. Good Luck with your efforts, Marion
Vicary
