Last name: Koplin

Organization: Cordova Electric Cooperative, Inc.

Title: CEO

Comments: I have reviewed the draft plan, and here are my brief comments:

Thank you for considering and incorporating some of CEC and others' public testimony regarding the development of renewable energy resources on the Forest, particularly in suitable designations including back country designated areas.

Please consider the following suggestions:

Acknowledge the positive impact on air quality to the forest of renewable energy projects in proximity to the forest, perhaps in sections FW-G1-DC-01 or FW-G2-DC-07.

Consider adding energy objectives, that at least one collaboration to determine a high value, low (environmental/economic) cost renewable energy project on the forest to reduce or eliminate fossil fuel generation adjacent the forest (FW-OB-25?), and a second energy objective to implement at least one educational collaboration to assess the renewable and non-renewable energy opportunities on the forest and the positive and negative impacts of realizing the opportunity(s) (GW-OB-26?).

Thank You
