Comments: Dear Forest Supervisor- I am submitting these comments on the proposed 2017 Chugach Forest Management plan.

1. I urge the Forest Service to

include all the 1.4 million acres of the WSA for PWS to be considered by Congress including these areas:

a. The following islands[Perry, Esther, Elrington, Glacier and Knight}}

b. Knight Island Passage mainland, Lake Nellie Juan, Columbia Glacier and Port Wells.

2. No expansion of the motorized areas in any part of the Chugach National Forest.

3. Add parts of the Copper River, the entire Katalls and Bering Rivers to the list of Wild and Scenic Rivers category.

Thank you for the opportunity to comment.
