Comments: Delighted that nordic tracks are being set and groomed at Turnagain Pass. We skied on set trails there in high school in the 1970s. Turnagain would be a terrific and appropriate place to set 10 - 15 kilometers of nordic trails every year. And especially during lousy winters (we had them in the '60s, '70s, '80s and '90s too) like the last three in Anchorage.
