Comments: There are many spectacular and amazing places in Alaska, but Prince William Sound is a special jewel.

This truly spectacular piece of wilderness is second to none. One of the things that makes Prince William Sound so special is it's easy access compared to many places in Alaska.

For both visitors and residents, PWS is an wonderful opportunity to be able to easily enjoy pristine wilderness.

Easy access to wilderness and wildlife is what makes Alaska such a special place to live and visit, and to lose one of the most accessible and beautiful places would be a tragedy.

Please continue the Wilderness designation for Knight Island, College Fiord, and Nellie Juan areas.
