Title:

Comments: I love swimming and boating on Sullivan lake and using trails. We drive the roads, hike the trails and boat the waters often.

We have a cabin at Sullivan lake and use the area constantly.

I like having the Sullivan lake ranger district open and accessible to the public for information and maps.

I love berry picking and being able to drive to the areas I use.

I love the accessibility for hunting and wood gathering.

On the revised plan I want no more wilderness and prefer the no action plan.

This will benefit the local rural economy better than any of the other plan and leaves the options for amending to open more roads, timber and grazing.
