Last name: Cates

Organization:

Title:

Comments: This is specifically geared for Pend Oreille county and NE Washington.

I love driving to the places I want to see, I want to be able to drive to more places in the public lands.

More roads open to all vehicles

No more wilderness then we already have.

We are already so restricted from using so much land that borders our communities and recreational areas.

I chose the NO ACTION PLAN so that we can amend and open up more land and not close more then we already have.

This is better for our Community and our future.

The people that actually live her in Pend Oreille have a better prospective of what is needed and not needed then anyone else commenting.
