Comments: Lower McCloud Fuels Management Project

Heather,

I am in support of the proposed project, it is good to see the forest taking a proactive approach to management in the Roadless areas and following the Northwest Forest Plan. Undoubtedly there will be opposition from individuals and groups that do not understand that the first step in the conservation of our landscape is in active management. The reduction of fuels will not only enhance the LSR - but safeguard it against catastrophic fire events, while benefiting the adjacent private lands, WUI's, PCT and other recreational opportunities associated with the McCloud reservoir. I wish you success in the decision and implementation of the proposed action.

Sincerely,

Ryan Hadley

Ryan Hadley
