Title:

Comments: Looking forward to riding Colville National Forest mtn bike trails. I enthusiastically support the development of trails for biking. Specifically

*Recreation Special Interest Area (SIA) designation for the Kettle Crest.

*Bald/Snow/White wilderness designation is changed to SIA, to preserve the unique contiguous Crest riding experience and maintain connection to Thirteen Mile Trail.

*Abercrombie Mountain and Silver Creek trails be removed from recommended wilderness designation.

Thank You,

I appreciate all the hard work that goes into the planning and development of trails by the USFS.

John Kuntz
