First name: leisha

Last name: monet

Organization:

Title:

Comments: I urge you to protect this area and to not permit any use of the land or waters that interferes with the wildlife nor to remove any trees for profit of any, nor to develop the area, nor to allow any mining or means of oil production/seeking nor of gas, nor of any building to promote visitors or easier access for visitors. I urge you to protect the area and the wildlife and to keep things there as pristine as possible. Humans have enough developed land and the non-humans need to live unmolested, un-hunted, without fear of being trapped or exploited. Please do all you can to protect this area as well as other areas that need the same protections.
