Dear Colville National Forest Plan Revision Team,

Thank you for the opportunity to comment on the revised Colville National Forest Plan.

As a hiker, I believe this plan will be very important to creating a sustainable future for outdoor recreation in Northeastern Washington.

Here on the Olympic Peninsula, hiking brings us people from all over the world. While we need to guard the wilderness from overuse, at the same time, we need the support and monies to support that very process of protection.

In general, I support the Forest's Preferred Alternative (Alternative P) because of its goals to protect the area's ecological health while balancing recreation needs. However, I believe it falls short in providing enough recreation resources.

Hikers like me would like to see more areas that include nonmotorized trails and that these trails, as well as the roads that lead to them, are well maintained.

I would like the final plan to include increased recommendations for wilderness designation. The areas that should be considered for wilderness protection include Bald Snow, Abercrombie Hook and the Salmo Priest Adjacent Inventoried Roadless Areas as well as Thirteenmile & Cougar Mountain, Grassy Top, Hall Mountain and Quartzite Inventoried Roadless Areas.

Sincerely,

Jeanie Murphy
