Comments: Thank you for the opportunity to comment on the Colville National Forest's Land and Resource Management Plan Revision. I like to hike the trails in this forest and believe we need to be good stewards of the wildlife there. Therefore, it's crucial to protect and to add roadless and wilderness areas.

Please recommend the following wild roadless areas on the Colville National Forest as wilderness: Profanity, Bald Snow, Hoodoo, Abercrombie-Hooknose, Salmo-Priest Adjacent, Thirteenmile, and Quartzite. I also ask that they be managed as designated wilderness, to maintain their wildness and suitability. Abercrombie and Hoodoo are my favorite hiking areas.

I oppose the proposed Special Interest Area designation for the Kettle Crest, but would like to see a Calispel and The Baldy's Special Interest Area that is multi recreation and connects to communities. I also urge you to support the restoration targets developed by the Northeast Washington Forestry Coalition, which will help the economies of rural communities next to the Colville National Forest.
