Comments: The City of Big Bear and Snow Summit Resorts desperately need more intermediate mountain bike trails from top to bottom so the resort can become more family oriented instead of just catering to a narrow select group of mountain bikers. Numerous other resorts that my family and others have been to include Mammoth, Winter Park, CO, Steamboat, CO, Deer Valley, UT, Park City, UT, etc. all experience greater user ship and a more family oriented atmosphere due to multi-level trails at their resorts. With Big Bear being only 2 hours away, we would be able to visit there more often if the above where available at Snow Summit as well. Thank you!
