Comments: Please more trails at Snow Summit. I have visited the bike park quite a few times and it is in dire need of more trails. More trails will mean more fun and more safety for everyone. More appropriate trails for beginners means less injuries from beginners going down the advanced trails. More trails means less crowding on the current trails. As it was last summer and now (before going green opens) on weekends it is a complete mess of humanity out there. More trails means more space, more fun, and more safety.
