Comments: I am in favor of the proposed additions to the Snow Summit Bike Park. I am an avid mountain biker and owner of a Southern California based mountain biking clothing company, ZOIC. We make multiple visits to the Bike Park each year, but I am challenged to find opportunities to ride with my children around Snow Summit and help them improve their bike skills. I believe the proposed additions would be of significant benefit to users like us and the community of Big Bear, providing for more recreation and consequently greater economic opportunity.
