First name: Brad

Last name: benam

Organization:

Title:

Comments: I support anything that will build, or support biking in the Los angeles area. Millions of young adults, high school kids, and teams, and all ages of adults use our local mountains to find a place to exercise and play in. I support any mountain bike park, skills area, or building, improving trails, connecting segments of existing trails. It is a very safe way to get great exercise with out the free of getting run over by cars/motor cycles.
