Comments: I support the no change plan my reasoning's are as follows . I am a land owner that borders USFS land and I am here to say that the area around here along with the already designated wilderness land is not maintained well at all. I believe that the resources that have been and will be used to change the forest management plan would be better utilized cleaning up what the land that is already designated to the USFS. there are so many areas that are fire hazards or that have been closed off to the public due to down trees and unsafe areas. the cleaning up of these areas should come before claiming more wilderness lands that will be unusable. please consider all of the areas in the Colville national forest that could and should be being utilized and because of years of non care they are un accessible resource and a fire hazard. thank you for your time
