First name: Lee

Last name: Dunton

Organization:

Title:

Comments: 1. We need more emphasis on protecting Special Areas i.e. PWAs, while allowing mtn bikes use where currently allowed.

2. Fire and road policy needs to address rapid access for initial attack, especially in the WUI. Strategic road access needs to support successful IA, and subsequent suppression action.

3. A clear fire policy and criteria for unplanned ignitions is needed.

4. I support the proposed Calispell SIA, and reestablishing the old Calispell Trail from Flowery Trail north to the Little Pend Orielle Lakes trails.

Thanks you for you diligence and commitment.
