First name: Rolland

Last name: Waters

Organization:

Title:

Comments: While I appreciate the hard work and dedication that the USFS has done to get to this point, and support plan "P" as the current best plan, I cannot and must not support it in its entirety, for the simple reason that some of the designated wilderness study areas are beautiful places that make reasonable mountain bike access.

Further, chainsaws are useful as a trail clearing and maintenance tool, and wilderness designation removes that.

I fully support Evergreen MTB Alliance's suggested alternatives for Recreational Special Interest Areas. They match the riding I've done on the alpine crests, and riding I want to be able to do in the future with my family.

Sincerely,

Rolland Waters
