Comments: As land and business owners along the Kettle River for the past 20 years, our interests in the forest vary from economic via timber harvest to recreational opportunities for as varied a constituency as possible.

Having reviewed the forest plan options, we have concluded that Plan P most closely resembles our own sensibilities and represents a reasonable compromise for the concerned interests.

Thank you for your efforts to bring a sustainable solution to the area we hold dear.

Sincerely, Greg and Christy Harvey Kettle River Whole Life Curlew, WA
