Comments: Forest plan revision

First, thanks for all the hard work on the revision plan. Here is my two cents worth. I have attended the presentation of the plan, looked at it, and also checked in on the county commissioners steps toward local control of the forest (misplaced and poorly thought out). The national forests should belong to all with consideration for future generations, not just current political attitudes and interests.

Plan P seems the most reasonable. I appreciate all of the collaboration and the balance of varied interests. It must be difficult coordinating the many competing interests while keeping in mind the health of the forest and future generation's heritage.

Thank you .
