To whom it may concern;

As a 69 year old person that has enjoyed the Colville National Forest my entire life, skiing (still), hiking, camping and just plain exploring via bikes and atv's, I would ask that you seriously consider not making any major changes in the Forests plan going forward. I am very aware of the increased fire danger built into the new plan and have major objections to any part of the plan that would impose greater risk to the forest itself, and its animal and human residents. I also have objections to those parts that works to impact people like me from continuing our relationship to the Colville National Forest that we have respected and enjoyed our entire lives. Thank you.

Respectfully submitted,

Eric Alm (formerly of Chewelah)
