Comments: Dear Forest Supervisor Rodney Smoden

Thank you for allowing me to comment on the Forest Plan for the Colville Nat. Forest's land and resource management . I'll be brief.

1) I recommend the follow wild Roadless areas on the Colville Nat. Forest as wilderness: Profanity, Quartzite, Thirteen mile, Bald Snow, Hoodoo, Twin Sisters, Abercrombie-Hooknose, Grassy Top, Salmo-Priest Adjacent.

2) No special interest /Area designation for the Kettle Crest (S>I.A. designations of Swan Lake and Cougar area in Ferry County ok, also Calispell area in Stevens and Pent Orielle Co.)

3) Yes to "Alternative B" - add clear restoration and maintenance standards for large old trees.

Wilderness is so vitally important to us all, whether we visit it or not!
