First name: Kevin

Last name: Loomis

Organization: san diego mountain biking association

Title: President

Comments: As President of the second largest IMBA Chapter (www.sdmmba.com) in the USA (over 1,000 members), I speak for a very large population of riders who desire more trail at Snow Summit. As a father and family of four (all riders, ages 9, 11, 47 and 51) we deeply enjoy riding Snow Summit but always leave wishing for more family friendly trail. The proposed intermediate trails fill the vacuum perfectly and will bring far more families and riders to Big Bear during summer months. As it stands, the vast majority of riders are there for the jumps and the technical thrill. While important, they represent a very small fraction of riders. Creating more intermediate trail will dramatically increase tourism to this awesome town.
