Amy Dillon, Forest Plan Revision Team Colville National Forest

Colville Supervisor's Office 765 S Main

Colville, WA 99114

My review of the Colville National Forest Revision Plan comes after much debate about the 21" diameter logging size. I also would prefer we have more wilderness area, but am willing to compromise on the proposed wildlife area. Having reviewed the Option P. is the best option.

I want to also thank you for your dedication to managing our public lands under such difficult budget constraints, while having to deal with a growing number of people who misunderstand the value of maintaining public land in perpetuity .

Again, thank you for all you do and for the opportunity to comment on this plan. Please contact me with any questions,
