Thank you for taking the time to make the presentation to our small group this past April 23. I can only imagine how difficult your job is made by dealing with those individuals and groups who insist that government 'never does anything right'. Please be aware that many people feel that protecting our national forest for future generations is vital. In reviewing the options available, it appears that Option P is the best option to give the U.S.F.S the ability to maintain a healthier forest via diversity.

While none of the options can address the fact that you are continuing to accomplish more with a shrinking revenue stream. I continue to hope that the U.S.F.S. will be given a larger budget, but do not see a quick solution to Congress refusing to address.

Again, thank you thank you for all you do.
