Thank you for this opportunity to comment on the Colville Nation Forest Revision Plan. Your job of dealing with those individuals and groups who insist that government never does anything right must be exasperating. Please be aware that many people feel that protecting our national forest for future generations is important and our public land and you are appreciated. In reviewing the options available, it appears that Option 'P' is the best option to give the U.S.F.S the ability to maintain as healthy forest as possible with your budget constraints.

While none of the options can address the fact that you are continuing to accomplish more with a shrinking revenue stream. I continue to hope that the U.S.F.S. will be given a larger budget, but do not see a quick solution to Congress refusing to address.

Again, thank you for all you do.
