I am writing on behalf of the City of Grants, as a Cooperating Agency participating on the Mt. Taylor Landscape Team. As a participant in the process of developing a Draft Forest Revision Plan, we would like to weigh in on our preferred option. As the Forest Service works toward a final plan, we wanted to make sure that the Forest Service knows that the City of Grants prefers the Plan B option.
We greatly appreciate the ability to participate along with many other partners as we work toward a plan that serves diverse interests and advocates for the best possible management of our forest resources and assets. We value the opportunity to participate and acknowledge the sincere effort on behalf of the Forest Service to solicit a broad public engagement that is designed to facilitate the best possible outcome.
We look forward to a continued partnership and future work with the Forest Service. Please keep us informed as to how we can be involved and support the initiatives under the directions of the Cibola National Forest.
Sincerely,
Laura Jaramillo
City Manager
