First name: Michael

Last name: Stabile

Organization:

Title:

Comments: Proponent claims that their drilling will be compliant with ADWR requirements.

However they do not mention what those requirements are. How they will accomplish these requirements.

It would seem appropriate that they describe the intended actions to achieve these goals.

I would ask that the requirements be described in detail and a detailed description of how they intend to comply be included in any final decision.

Yours truly

Michael Stabile
