Comments: I am opposed to the Berlaimont Road Improvement Project #50041 near Edwards Colorado because it is giving special consideration to a developer above what is required for an inholder within National Forest lands. Berlaimont has adequate access to use and enjoy their private property, but NFS is not required to grant them a road to support their proposal for a multi million dollar development. Wildlife consideration should be paramount and increased speeds over improved roads will only increase vehicle/wildlife accidents. I am especially concerned for the endangered Sage Grouse as they are elusive and will not tolerate increased activity into their habitat. Eagle County has long opposed the destruction of visual corridors within the Eagle River Valley, and this road would place unnecessary scars on the vistas that both residents and visitors enjoy. The accumulative effect of 19 homes plus 19 ADU's creates road use for 38 residences well out town, in an area that should be left compatible with the adjacent Forest Service land's serenity. I hope you will adhere to your own obligation of giving an inholder reasonable use and enjoyment of their own personal property, but not pave their way for development.
