Title:

Comments: Draft Little Crow Restoration Project:46307

1. Current wood cutting areas need to be closed and moved to other areas that need forest fuel reduction.
- 2.1921 road closure, should open June 15th not June 30th to coincide with other area trail and road openings.
- 3.Any area of camping that is closed to the restoration should be moved to other areas so the Public still has access.
- 4.I support Plan 2 Modified Proposed Action With Review of the above proposed changes to the plan.

Thank you,

Mike Van Amburg
