First name: kathy

Last name: thorp

Organization:

Title:

Comments: 1. Follow no camping within 100 feet of water. No camping within 100 feet of Meadow Creek reservoir and RIVER. No dispersed camping along any waterway. Water and River ways are being destroyed. Save the Fraser, Colorado AND Meadow Creek Rivers.

2. No parking on CR 84/FS 129. Need signs at entryway and end of county maintenance sign that parking on the road is not allowed. This little county road has become very dangerous the last 10 years; It is not designed to support the amount of traffic it has now and parking on the road creates such difficulties. If parking areas, High Lonesome and snowmobile parking lot is full you cannot just park all along the roadway. This S-Curve and the switchbacks are treacherous.

3. No firearms discharged except in designated areas stressing current regulations.
