Comments: God reminds you to consult Him, or your conscience, and not focus on money, please. Of course Bison are a Species of Conservation Concern, and Focal Species.

I write in support of Buffalo Field Campaign's evaluation of the Custer Gallatin's Draft Assessment and agree there is a need to change the Forest Plan to identify wild buffalo as a Species of Conservation Concern and Focal Species.

I support the Regional Forester identifying wild buffalo as a Species of Conservation Concern on the Custer Gallatin National Forest.

I also support the Custer Gallatin identifying wild buffalo as a Focal Species on the Custer Gallatin National Forest.
