Comments: Dear Sir/Madame,

As a roadless and backcountry hunter and angler, I strongly urge you to maintain the GCNF in the most undeveloped state possible. This will maintain water quality, wildlife security, and most importantly, economic viability for our future generations. Logging, thinning, treatments, road building will all contribute to a degraded outdoor experiences and make the immediate area less desirable for businesses that relocate here and provide badly needed high paying jobs. Sincerely, Alex Russell.
