Comments: RE: Environmental Review of Application for Mineral Withdrawal to Protect Minnesota's Boundary Waters Canoe Area Wilderness

Dear Superior National Forest Supervisor Cummins,

I urge you to support the 20 year moratorium to protect the Boundary Waters Canoe Area and the watershed of what is virtually my back yard, Lake Superior (I get to live on Park Point) from potential toxic contamination.

We all know that nowhere has sulfide mining been done without contaminating surrounding waters. Modern technology is wonderful in so many ways. But we are only human, and there are no outstanding examples of this kind of mining having been done safely.

Ours is a huge responsibility - to protect our earth, air and waters for future generations. I hope that you will help by doing your part to insure that these waters are protected.

Thank you for your efforts,

Jan Karon
