Title:

Comments: I am oppose to this project because of extremely limited benegit to the public. Open it up to the public if you do it. Otherwise, private development on public land? No thanks. I remember not so many years ago being allowed to ski the race course runs when training was not actually in progress. That part of Vail Ski Resort is now always closed to the public. Who gets the lane fees when foreign ski teams train on Gold Peak? Not the landowners.
